PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tempessee W. E. CHILDS & CO.'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other Roothe.

ARCHITECTS AND BUILDERS should not feil to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, clastic, and flexible, it contracts and expands with the changes of the s'mosphere and will neither evaporate, crack nor rot and as to here, and will neither evaporate, crack nor rot; and, as to It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, old shingles, far Sad gravel, tin, sine, copper, or iron roofs

-it making no difference how steep or flat they may be-for seven dollars per one hundred square feet; it being far heaper than any Roof of the old style, and we are sure it will give better satisfaction. It will also be found to be the best tring ever invented to cover or mend old leaky tin, tar and gravel roofs, or around chimners, souttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to la as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be pointed over (and warranted not to leak) at two d llars and fifty cents per hundred square feet, which is cheaper and much bet-ter than paint. This Roofing will be found to be the best theng for covering large Roofs where they are exposed to fir —such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depets, Station Wouses, Steambout Decks,

and, in fact, every kind of Koof where there is an external e sposure from fire. As the Boof is perfect, without a joint in it, it presents no chance for fire to communicate, and any Incht substance will born out without igniting.

Insurance Offices at Cincinnati, and other piaces stock. We will make ings with Book overed sith this Cement, at the same rates as for those covered with Iron, Copper or Tip

The Cement will be furnished to those at a distance with directions for using. ith directions for using.

Of Orders sent to the undersigned, through the Postoffice, will be promptly attended to

OPPIGE BUCKETS TTAKE INSURANCE COMPANY, The all whom it was concean. This is to certify that have examined specimens and Roofs of W. E. Chikis & Co.'s "Elastic Fire and Water-Proof Cement Roofing," and be large it to be leve it to be eminently superior to any other kind of Roof ing in use. I was an eye witness of a sewere trial of one of these Roofs from a large volume of flame from an anjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond all ex-pectation, and saved the building. T. M. HARKELL, President Buckeye State Insurance Co.

CINCINNATI AGENCY ROYAL INSURANCE COMPANY, } I have examined W. E. Childa & Co.'s "Elastic Fire and Water Proof Gement Roofing," and as far as I can judge, consider it a great invention, and am willing to insure buildings thus protected upon the same terms as I insure those covered by metal.

Cincinnavi, Jan. 7, 1857.

Having made considerable inquiry as to the merits of the 'Patent Elastic Cement Hoofing," introduced into this city by thirds & Co., I find it to be highly recommended in this city by many excellent judges; that it is meeting with very ready and general introduction; that its superiority over ready and general introduction; that has appendix over the tar composition Roofing is decided and freely adotted; and finally, I expect to adopt it for my next roof, which will be next summer—having intended to use fin, but will try the virtues of the "Patent Elastic Roofing" as a substitute Yours, truly, J. B. BENNETT. Yours, truly,

SUCH AS Indigestion, Acidity of the Stomach, Celicky Pains, Heartburn, Loss of Appetits, Despondency, Comtiveness, Blind and Bleeding Piles. In all Nervous Rheumatic, and Neuralgic Affections, it has, in numerous instances, proved highly beneficial, and in others effected a ecided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Prefessor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more espenially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.
